Re: Response to ECRCO Follow-Up Questions Regarding Uniontown Civil Rights Complaints

Dear Director Dorka,

This letter is in response to an email from Brittany Martinez dated June 29, 2017 to the Yale Law School Environmental Justice Clinic seeking additional information in relation to complaints 12R-13-R4 (“Uniontown Discrimination Complaint”) and 38R-16-R4 (“Uniontown Intimidation Complaint”). In addition to responses to the specific requests for additional information, please find additional evidence of irregularities in ADEM’s complaint processes.

Before addressing problems with ADEM’s complaint procedures, Complainants renew their request to participate in any negotiations between the Alabama Department of Environmental Management (ADEM) and EPA’s External Civil Rights Compliance Office (ECRCO) regarding the resolution of their complaints. While Complainants appreciate phone calls that EPA has offered to brief Complainants on the status of the investigation, these calls have thus far been presentations of a *fait accompli* and are no substitute for consideration of the input and perspectives of Complainants. As Complainants have requested many times, Complainants seek an opportunity for input on the terms of any resolution of their complaints.

In addition, if there are gaps in the evidentiary record, Complainants stand ready to provide additional information. If EPA intends to enforce its regulations prohibiting actions by recipients of federal funds with an unjustified disparate impact, 40 CFR § 7.35, ADEM’s decisions to modify and then reissue permits for Arrowhead Landfill – including the provision

that continues to allow the Landfill to accept coal ash – unquestionably meet this standard. As the complaint and subsequent filings demonstrate, the Landfill has and can reasonably be expected to continue to have significant adverse impacts on the community, starting with the strong and pervasive acrid smell affecting quality of life.¹ EPA’s determination on the impact question should not depend on the sufficiency of conclusions rendered by Ex. 6 Personal Privacy (PP) indeed Ex. 6 Personal Privacy (PP) suggested that while her test results were indicative of impacts on surface water, she submitted the results to ADEM and, subsequently, to EPA, to prompt additional testing to determine the nature and extent of adverse effects. To Complainants’ knowledge, EPA has not conducted air, soil, dust, surface water, or groundwater testing. Moreover, impacts on surface water are but one category of adverse impacts.² Finally, these adverse impacts disproportionately affect African Americans, and there are both less discriminatory alternatives and measures available to ADEM that would mitigate adverse effects.

The Uniontown Discrimination Complaint alleged that ADEM violated Title VI and EPA’s implementing regulations by reissuing and modifying, on September 27, 2011 and February 3, 2012 respectively, Solid Waste Disposal Facility Permit No. 53-03. The permit authorizes Perry County Associates, LLC to construct and operate the Arrowhead Landfill, a municipal solid waste landfill in Perry County, Alabama, which has the effect of adversely and disparately impacting African American residents in the adjacent community. Recently, in resolving Complaint No. 06R-03-R4 (“Tallassee Complaint”), EPA found insufficient evidence that ADEM discriminated against a primarily African American community adjacent to a landfill in part because the allegations in that case challenged a decision to modify a permit, and EPA limited the scope of its impact analysis to the marginal changes proposed and adopted by the modification rather than evaluating the effects of the permit as a whole.³ In this case, however, EPA’s analysis includes the effects of both a modification and ADEM’s decision to reissue the

¹ See, e.g., Letter from David Ludder to Vicki Simons, EPA (May 30, 2013) (Title VI Civil Rights Complaint and Petition for Relief or Sanction – Alabama Department of Environmental Management Permitting of Arrowhead Landfill in Perry County, Alabama) (EPA File 12R-13-R4); Letter from Marianne Engelman Lado, et al., Earthjustice to Velveta Golightly-Howell, EPA (March 4, 2016) (EPA File No. 12R-13-R4, Complaint Against ADEM Regarding Permit for Arrowhead Landfill); Letter from Marianne Engelman Lado, et al., Earthjustice to Velveta Golightly-Howell, EPA (March 8, 2016) (Title VI Civil Rights Complaint and Petition for Relief or Sanction – Alabama Department of Environmental Management Permitting of Arrowhead Landfill in Perry County, AL); Letter from Marianne Engelman Lado, et al., Earthjustice to Lilian Dorka, EPA (Dec. 14, 2016) (Request for Preliminary Finding of Discrimination Without Further Delay; Supplemental Information Relevant to Impact Determination).

² See EPA EXTERNAL CIVIL RIGHTS COMPLIANCE OFFICE, TOOLKIT: CHAPTER 1 15 (2017); EPA EXTERNAL CIVIL RIGHTS COMPLIANCE OFFICE, FREQUENTLY ASKED QUESTIONS (FAQS) FOR CHAPTER 1 OF THE U.S. EPA’S EXTERNAL CIVIL RIGHTS COMPLIANCE OFFICE COMPLIANCE TOOLKIT 4 (2017) (explaining that in addition to considering environmental harms and adverse health effects, “EPA will also consider non-health harms, including, among other things, economic (e.g. depressed property values), nuisance odors, traffic congestion, noise and vermin.”)

³ Complaint Closure Letter from Lilian S. Dorka, EPA, to Lance LeFleur, ADEM 6 (Apr. 28, 2017) (EPA File No. 06R-03-R4).

permit as a whole.⁴ The modification approved in 2012 increased the disposal acreage substantially from 256.1 acres to 425.33 acres, resulting in an increase of 169.179 acres permitted for disposal operations,⁵ a decision with significant adverse effects.⁶ *Uniontown Discrimination Complaint* at 18. In addition, however, EPA's analysis of the adverse impacts of the 2011 decision to reissue the permit, including the provision allowing receipt of "special waste" such as coal ash, must include evaluation of the effects of the entire permit, not just any marginal change.⁷ Given the extraordinary impacts of Arrowhead Landfill on the welfare and life of community residents to date, EPA should recognize and find that ADEM's decisions to modify and reissue the permit had and continue to have disproportionate adverse impacts in violation of Title VI and EPA regulations.

Responses to June 29, 2017 Requests for Information

Below please find information in response to the June 29, 2017 request for additional information.

Question 1. [Ex. 6 Personal Privacy (PP)] stated that he had contacted ADEM in August 2016 to complain about issues pertaining to the Arrowhead Landfill and activities at the cemetery, but that ADEM would not take his complaint. Can [Ex. 6 Personal Privacy (PP)] provide the dates in which he attempted to submit the complaint, what the complaint was, and describe what ADEM's response was to him?

On Friday August 19, 2016 [Ex. 6 Personal Privacy (PP)] visited ADEM offices in conjunction with a trip to attend a meeting of the Alabama Environmental Management Commission. While at ADEM's offices, [Ex. 6 Personal Privacy (PP)] spoke with ADEM staff member Glenda Dean about his observation of runoff from Arrowhead Landfill on August 15, and during this conversation with Ms. Dean, he stated that he wanted to make a complaint about the runoff. Ms. Dean indicated that [Ex. 6 Personal Privacy (PP)] could file a complaint in the office but provided no instruction on how to do so. [Ex. 6 Personal Privacy (PP)] left with the impression Ms. Dean would contact him regarding his complaint but he never heard back from Ms. Dean or any other ADEM staff member in follow up to this conversation. To [Ex. 6 Personal Privacy (PP)] recollection, Ms. Dean said that he could make a complaint but then failed to follow up.

⁴ See Draft Revised Guidance for Investigating Title VI Administrative Complaints Challenging Permits, 65 Fed. Reg. 39667, 39677 (June 27, 2000) (EPA expects analysis of disparate impacts in the context of a permit modification to be limited to the modification and its effects, a limitation not similarly applicable to analysis of the effects of a permit reissuance).

⁵ Alabama Department of Environmental Management, Final Determination – Permit Modification (Feb. 3, 2012) (Permit No. 53-03), available at <http://app.adem.alabama.gov/eFile/Download.ashx?lib=Land&docId=004017103>.

⁶ If EPA's determination rests on analysis of the more limited scope of impacts resulting from the modification as compared to the whole permit, Complainants request the opportunity to brief this set of issues.

⁷ If EPA's determination relies on the question whether changes in permit conditions had net adverse effects, rather than whether the permit taken as a whole has adverse impacts, Complainants request the opportunity to brief this issue.

Question 2. *In addition, there was a comment made that there had been multiple complaints submitted to ADEM but were all given the same complaint filing number. Can you provide additional information pertaining to the individual complaints, such as who filed them, what they were about, and what filing number they were given. In addition, did ADEM provide a reason for the duplicative numbers and was there any follow up or response provided by ADEM to the individuals about the complaints?*

In November, 2015, [Ex. 6 Personal Privacy (PP)] observed run-off from Arrowhead Landfill and called ADEM several times to submit a complaint.⁸ After one or more calls during which ADEM failed to provide [Ex. 6 Personal Privacy (PP)] with a complaint number, on or about November 11, 2015 [Ex. 6 Personal Privacy (PP)] called again and asked for a complaint number. At this point, ADEM gave [Ex. 6 Personal Privacy (PP)] Gipson complaint number 7k-002wd5e88.⁹

On or about November 12, 2015, [Ex. 6 Personal Privacy (PP)] called and complained to ADEM about run-off from Arrowhead Landfill.¹⁰ ADEM gave [Ex. 6 Personal Privacy (PP)] the same complaint number Mr. [Ex. 6 Personal Privacy (PP)] had received the day before, 7k-002wd5e88.¹¹

On November 13, 2015, ADEM employee Evan Roberts conducted an inspection, but it is both [Ex. 6 Personal Privacy (PP)] understanding that he contacted Landfill personnel before contacting [Ex. 6 Personal Privacy (PP)] who had filed the complaints. Once in town, Mr. Roberts went to Arrowhead Landfill and then was with the Landfill employee when finally speaking to [Ex. 6 Personal Privacy (PP)] found intimidating.

On this occasion and others, when [Ex. 6 Personal Privacy (PP)] has been in the vicinity of Arrowhead Landfill, Landfill employees, including Thad Owings and other community members associated with the Landfill, have approached her and made her feel uncomfortable. Landfill employees and other people associated with the Landfill know that she has family members in the cemetery. She has expressed her view that the Landfill's activities in New Hope Church Cemetery (including, to her understanding, placing one or more monitors on Cemetery grounds, bringing heavy equipment onto the Cemetery, removing and/or moving head stones, running heavy

⁸ See Deposition of [Ex. 6 Personal Privacy (PP)] et al v. Alabama Department of Environmental Management 56 (June 21, 2017), excerpt attached as Exhibit A.

⁹ Complaint 7k-002WD5E88, eFILE – ALABAMA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT, <http://app.adem.alabama.gov/eFile/Download.ashx?lib=Field&docId=004090488> (last visited July 28, 2017); Mr. [Ex. 6 Personal Privacy (PP)] recently provided information related to his effort to file a complaint during a deposition in a contested case challenging ADEM's 2016 approval of the permit for Arrowhead Landfill. See Deposition of [Ex. 6 Personal Privacy (PP)] et al v. Alabama Department of Environmental Management 56 (June 21, 2017), excerpt attached as Exhibit A.

¹⁰ Complaint 7k-002WD5E88, eFILE – ALABAMA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT, <http://app.adem.alabama.gov/eFile/Download.ashx?lib=Field&docId=004090488> (last visited July 28, 2017); Deposition of [Ex. 6 Personal Privacy (PP)] et al v. Alabama Department of Environmental Management 65 (June 19, 2017), excerpt attached as Exhibit B.

¹¹ Id.

equipment in areas where people are buried, and disturbing the area where she believes her family members are buried) are wrong, and it is also [Ex. 6 Personal Privacy (PP)] impression that this employee was involved in the defense of the Landfill's actions. As [Ex. 6 Personal Privacy (PP)] stated in her declaration dated March 3, 2016, she perceives the Landfill's actions in the Cemetery as a "new way to show us that we are not respected or fully citizens"¹² – in other words, a way to keep African Americans in Uniontown down, and the employee's presence during the inspection made her uncomfortable.

The same day, November 13, 2015, [Ex. 6 Personal Privacy (PP)] complained to ADEM and initially received the same complaint number that was given to [Ex. 6 Personal Privacy (PP)] Mr. [Ex. 6 Personal Privacy (PP)] then made an online complaint and was assigned a new number: 6f-008BR4C12.

[Ex. 6 Personal Privacy (PP)] called ADEM again on Thursday 11/19/15 and Friday 11/20/15 but his calls were not returned until the following Monday and Tuesday. During this conversation he requested a complaint number but was not given one, though the complaint was registered as 2R-004GY7N17.

Question 3. [Ex. 6 Personal Privacy (PP)] *stated that she experienced intimidation when she and Mr. [Ex. 6 Personal Privacy (PP)] contacted ADEM to submit a complaint regarding the cemetery due to an ADEM representative bringing along an Arrowhead Landfill representative to address her complaint in person. Can she provide the date in which she submitted the complaint and when she met with the individuals? In addition, please request that [Ex. 6 Personal Privacy (PP)] recount in as much detail as possible what was said during that conversation and by whom; whether she asked to speak with the ADEM representative privately; and what words or actions (and by whom) made her feel intimidated.*

Preliminarily, we want to clarify confusion over the identities of two Uniontown residents with similar first and last names. Though N [Ex. 6 Personal Privacy (PP)] is a member of the community, the incidents referenced in EPA's June 29, 2017 request for additional information involve [Ex. 6 Personal Privacy (PP)] Adding to the confusion, at least one ADEM complaint, 2R-004GY7N17, erroneously spells [Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)] interaction with the ADEM inspector and Landfill representative coincided with the November 12 & 13, 2015 incident involving duplicate complaint numbers. On November 13, 2015, after [Ex. 6 Personal Privacy (PP)] attempted the previous day to file a complaint and was given complaint number 7k-002wd5e88, it was [Ex. 6 Personal Privacy (PP)] understanding that an ADEM inspector was going to come to town and speak with her. Instead, Evan Roberts of ADEM arrived to do an inspection and apparently went to see Arrowhead Landfill supervisory employee Thad Owings first. [Ex. 6 Personal Privacy (PP)] in the proximity of the Landfill to document

¹² Declaration of [Ex. 6 Personal Privacy (PP)] (March 3, 2016) (Attached as Exhibit 13 to *Uniontown Intimidation Complaint*).

the continuing runoff, noticed Owings and Roberts. [Ex. 6 Personal Privacy (PP)] noted, “they didn’t respond to me.... And when they did -- when the guy [the inspector] did talk to me, he was finishing up and concluding and leaving.”¹³ [Ex. 6 Personal Privacy (PP)] felt the presence of Mr. Owings indicated that despite their roles as Complainants and whistleblowers regarding the run-off, ADEM prioritized consulting with the Landfill over listening to Complainants’ concerns. Additionally, Ms. [Ex. 6 Personal Privacy (PP)] found the unanticipated presence of a Landfill representative intimidating. As a government agency, ADEM has an obligation to be responsive to residents of the state and protective of their health and welfare. The Landfill, on the other hand, pursues its own interests in Uniontown aggressively. The Landfill’s lawyer Mike Smith, for example, represented Green Group Holdings in its SLAPP suit against [Ex. 6 Personal Privacy (PP)] and three other Complainants.¹⁴ He is a regular presence in town, appearing at City Council meetings, listening to citizen concerns voiced in that forum, and attending meetings with residents called by the Landfill in response to community concerns, despite the fact that community members do not also have representation. The failure of the ADEM inspector to contact the Complainants and then to engage the Complainants only in the presence of Landfill employees during the inspection raised questions about whether any information conveyed to the inspector would also be communicated to the Landfill and, if so, whether such information might be fodder for an aggressive and litigious approach to community residents.

Once [Ex. 6 Personal Privacy (PP)] inquired as to the origin of the run-off being investigated by Mr. Roberts and Mr. Owings, Mr. Owings agreed to allow [Ex. 6 Personal Privacy (PP)] on part of the facility grounds. Mr. Owings drove a vehicle, with Mr. Roberts sitting in the front passenger seat. [Ex. 6 Personal Privacy (PP)] felt that Mr. Owings’ position driving the truck put him in the authoritative position, despite the fact that the Complainants were hoping to speak openly with Mr. Roberts about their concerns regarding the Landfill. The presence of Mr. Owings, especially in the dominant position of driver, further intimidated [Ex. 6 Personal Privacy (PP)] and created an atmosphere where Complainants’ concerns about the Landfill could not be expressed forthrightly and without undue influence. [Ex. 6 Personal Privacy (PP)] made requests to visit specific areas of the Landfill, but his requests were ignored or dismissed by Mr. Owings. According to [Ex. 6 Personal Privacy (PP)] during all interactions that day, the majority of the conversation took place between Mr. Owings and Mr. Roberts, with the Complainants only being brought into the conversation occasionally and infrequently.

When the group stopped near a collection tank and tanker, Mr. Roberts took a sample. At that point, [Ex. 6 Personal Privacy (PP)] noted that leachate was dripping from a hose fitting. [Ex. 6 Personal Privacy (PP)] asked if he could be provided with a copy of the test results and pointed out the leaking leachate. While

¹³ Deposition of [Ex. 6 Personal Privacy (PP)] *et al v. Alabama Department of Environmental Management* 35 (June 21, 2017), excerpt attached as Exhibit A.

¹⁴ See *Uniontown Intimidation Complaint* 6-8 (Aug. 19, 2016).

Roberts assured [Ex. 6 Personal Privacy (PP)] he would receive a copy of the test results. [Ex. 6 Personal Privacy (PP)] never received a copy and the visit was promptly ended once [Ex. 6 Personal Privacy (PP)] pointed out the leak.¹⁵

Just days later, on November 19, 2015, [Ex. 6 Personal Privacy (PP)] received a cease and desist letter from attorney Mike Smith for statements made on the Facebook page of Black Belt Citizens Fighting for Health and Justice, a community-based organization of which she is an officer. This cease and desist letter happened just one week after [Ex. 6 Personal Privacy (PP)] had filed her complaint, reinforcing her belief that the Landfill was attempting to suppress her attempts to complain. Additionally, [Ex. 6 Personal Privacy (PP)] interpreted the presence of a Landfill representative in the context of repeated acts of intimidation, including the use of heavy machinery in her ancestors' graveyard adjacent to the landfill, the SLAPP suit filed in 2016 by Mike Smith, as well as the conspicuous presence of landfill employees when she is near the Landfill.

These Responses Should Be Understood in the Context of a Broader Pattern of Intimidation and Irregularities in ADEM's Complaint Process

As Complainants have previously submitted, although Green Group Holdings LLC and Howling Coyote LLC, the owners and operators of Arrowhead Landfill, agreed to the dismissal of their SLAPP suit against [Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)] four of the Complainants in the civil rights complaint, the chilling effect of the suit on the freedom of residents to complain and the exercise of civil rights continues.¹⁶ Although ADEM was apprised of the Landfill's activities, to the knowledge of Complainants, ADEM failed to take action to protect Complainants' exercise of rights from intimidation. To the contrary, in response to correspondence notifying ADEM of the actions of Perry County Associates, LLC, a permittee, ADEM stated dismissively that Perry County Associates was "in compliance with the conditions set forth in said permit" and that the SLAPP suit and Landfill's activities in New Hope Church Cemetery "constitute a private dispute regarding allegations of defamation, libel, and slander unrelated to EPA File No. 12R-13-R4."¹⁷ ADEM's failure even to investigate allegations of intimidation defies EPA's requirement that recipients acknowledge their affirmative obligation to implement a Title VI compliance program, including protection against intimidation and retaliation.¹⁸

¹⁵ Deposition of [Ex. 6 Personal Privacy (PP)] *et. al v. Alabama Department of Environmental Management* 56 (June 21, 2017), excerpt attached as Exhibit A.

¹⁶ See Email from Marianne Engelman Lado, Environmental Justice Clinic, to Lilian Dorka, EPA (Feb. 16, 2017) (Follow Up on Uniontown, Alabama Complaint).

¹⁷ Letter from Lance LeFleur, ADEM, to Matthew Baca, Earthjustice (April 8, 2016).

¹⁸ See EPA, *Civil Rights Obligations* 2 (Jan. 25, 2013), available at http://www.enviro-lawyer.com/Civil_Rights_Obligations.pdf. In the same vein, ADEM flagrantly disregards its obligation to comply with EPA regulations, which explicitly prohibit actions that have the "effect of defeating or substantially impairing" the objectives of the law. 40 U.S.C. § 7.35 (b)-(c) (emphasis added). See, e.g., ADEM, Summation of Comments Received and Response-to-Comments: Proposed Arrowhead Landfill Renewal & Modification, Permit 53-03, at 18 (Feb. 10, 2017) ("It is unsettled whether a 'disproportionate impact analysis' is legally required under Title VI. Title VI is *not* itself a disparate impact statute, and EPA's promulgated Title VI regulations do not specifically define or

As Complainants emphasized in an earlier submission, ADEM's eFile records provide ample additional evidence of irregularities in ADEM's complaint process.¹⁹ ADEM records show that ADEM's response to odor complaints regarding Arrowhead Landfill have frequently been dismissed by relying on the observation that "no unusual odors were detected" at a previous inspection, sometimes occurring months before the complaint.²⁰ ADEM resolved a complaint filed in March 2016, for example, by referring to an inspection conducted back in November 2015.²¹ Rather than conducting an inspection in response to the complaint, ADEM justified its conclusion that no violation existed by relying on the last routine inspection of the facility.²² Closing a complaint on the basis that the Landfill was found in compliance at a previous inspection is similar to a decision by a doctor to refuse to diagnose a patient with a disease because he or she was healthy at the last check-up; it is similarly inadequate.

By contrast, the record provides reason to believe that ADEM may treat odor complaints from other Alabama communities – and, particularly, communities with populations that are predominantly White – more seriously. A review of complaints filed between 2012 and 2016 concerning two landfills in Jefferson County – a county with a population that is approximately 53% white²³ – for example, indicates that ADEM's responses in Jefferson County were more timely and appropriate.²⁴ ADEM records reflect that 7 complaints were filed there between 2012 and 2016,²⁵ compared to approximately 150 complaints concerning Arrowhead Landfill in approximately the same time period.²⁶ Although the lower volume might arguably allow ADEM to allocate more resources per complaint, the greater volume in Uniontown also reflects the high level of concern raised by community members and the frequency and severity of problems. In contrast to ADEM's handling of complaints concerning Arrowhead Landfill, all of the complaints filed in Jefferson County led to an inspection within less than a month of the date

mention the term "disproportionate impact analysis." See also Commissioner Gail Heriot's dissenting opinion in U.S. COMMISSION ON CIVIL RIGHTS, ENVIRONMENTAL JUSTICE: EXAMINING THE ENVIRONMENTAL PROTECTION AGENCY'S COMPLIANCE AND ENFORCEMENT OF TITLE VI AND EXECUTIVE ORDER 12,898, 130-133, *available at* http://www.usccr.gov/pubs/Statutory_Enforcement_Report2016.pdf. ADEM, Summation of Comments Received and Response-to-Comments: Proposed Stone's Throw Landfill Renewal, Permit 62-11, 6 (Feb. 10, 2017).

²⁵ *Id.*

²⁶ See Exhibit D.

complaints were filed, with half of the inspections taking place in under 2 weeks.²⁷ One of the seven complaints, which was filed in April 2014, led to an inspection within 28 days followed by a warning letter to the city of Birmingham.²⁸ ADEM then inspected the facility monthly for a period of 7 months before closing the complaint in February, 2014.²⁹ Another complaint filed in August, 2013, led to an increase in the frequency of inspections from a quarterly to a monthly basis.³⁰ Yet another complaint filed in October, 2016, led to an inspection in just 6 days.³¹ Notably, comments made in emails concerning complaints from Uniontown that were sent between ADEM staff prior to 2010, when ADEM adopted a more formal system standardizing the written record related to complaints received, suggest a callous disregard for the concerns of Uniontown residents.³²

Finally, recent sworn testimony given in depositions in *Ex. 6 Personal Privacy (PP)* *et al. v. Alabama Department of Environmental Management*, a contested case challenging ADEM's February 10, 2017 decision to renew Arrowhead Landfill's permit, provides additional examples of procedural irregularities in the complaint process. For example, *Ex. 6 Personal Privacy (PP)* stated that she made a complaint to ADEM about the odor emanating from Arrowhead Landfill. She left her name but to her knowledge, she did not receive any response from ADEM. She stated further that she doesn't know whether her complaint was investigated, and she has concerns related to the responsiveness of ADEM to her complaints since "the odor is still there and the water is still flowing to the property."³³ Additionally, *Ex. 6 Personal Privacy (PP)* stated that it took several weeks for ADEM to respond to a complaint that he filed.³⁴

Ex. 6 Personal Privacy (PP) has noted deficiencies regarding community meetings held by ADEM. She cited lack of notification regarding such meetings,³⁵ and in at least one instance, a failure by ADEM to take adequate steps to ensure the ability of all community members to be heard when hearing time was taken by local elected officials.³⁶

³⁶ *Id.* at 49, 68.

Please let me know if Complainants can provide any additional information. We cannot imagine that there is a stronger case of a permit having unjustified racially disparate impacts and the effect of defeating the objectives of the law. Complainants thus urge ECRCO to find that ADEM's actions violated Title VI and EPA regulations. Complainants again request that they be included in negotiations regarding the resolution of the complaint: this would involve not just offering status updates, briefing Complainants as if they have no expertise or experience that might contribute to a positive outcome, but instead, involving Complainants in the discussion.

Sincerely,

Deposition Ex. 6 Personal Privacy (PP)

June 21, 2017

Ex. 6 Personal Privacy (PP)

et al. v. Alabama Department of Environmental Management

1 Q. And what did you tell them in
2 your complaints?

3 A. I'm not quite sure. I can't
4 remember. It's been a while. And I've
5 made so many complaints.

6 Q. All right, sir. And did they
7 respond to you regarding your complaints?

8 A. Well, actually, and truly, they
9 didn't respond to me. They went to see him
10 first, Mr. Owings. And when they did --
11 when the guy did talk to me, he was
12 finishing up and concluding and leaving.

13 Q. Okay. And what -- do you -- did
14 you bring a copy of the complaint that you
15 had made?

16 A. No, I didn't bring a copy of it.

17 Q. Did you bring anything with you
18 today?

19 A. I brought pictures and video.

20 Q. You've got a video with you as
21 well?

22 A. Yes.

23 Q. Okay. Could I see the pictures,

1 Q. Do you have any idea when that
2 was?

3 A. I don't know what day it was,
4 but it was one morning after I had been
5 complaining over weeks about it and someone
6 finally did come out. He went inside. He
7 got Thad. That was all in the same
8 morning. Thad took us over -- me and
9 Ex. 6 Personal Privacy (PP) inside and was showing me
10 the process to where it gets to that point,
11 and I pointed out to him that it was
12 leachate leaking on the ground. And that's
13 when our visit ended.

14 Q. And you say you said there was
15 leachate on the ground?

16 A. Leaking on the ground where --

17 Q. From where?

18 A. A tanker that was being loaded,
19 right there at that collection tank on the
20 corner, right across from Ex. 6 Personal Privacy (PP)
21 house. Straight in front of Ex. 6 Personal Privacy (PP)
22 house. The big black tank. I think
23 you-all have two of them in there with a

Exhibit B

Deposition of [Ex. 6 Personal Privacy (PP)]
June 19, 2017

[Ex. 6 Personal Privacy (PP)]

et al. v. Alabama Department of Environmental Management

1 pay attention.

2 Q. By riding, it's close to five
3 miles?

4 A. I just don't pay attention to
5 the mileage.

6 Q. But you know it's a good long
7 ways away?

8 A. Yeah. But I used to walk when I
9 was a little girl that far.

10 Q. Okay. Now, when you -- the
11 first -- when did you first attend a public
12 meeting about the landfill?

13 A. I can't remember.

14 Q. Do you recall --

15 A. I know it was at Robert C.
16 Hatch.

17 Q. Do you recall what was said at
18 the meeting, who was present, that sort of
19 thing?

20 A. Yeah. I remember you. You were
21 there. I remember [Ex. 6 Personal Privacy (PP)] being
22 there. I think [Ex. 6 Personal Privacy (PP)] was there. It
23 was a whole -- it was a lot of people

1 there.

2 Q. Do you remember representatives
3 from ADEM being there?

4 A. I -- I can't picture who was
5 there. I only remember Ex. 6 Personal Privacy (PP)
6 making all this noise that no one else
7 could talk, making an argument out of the
8 situation, that the residents was not
9 allowed to speak, that they could be heard.

10 Q. So no local resident spoke at
11 that meeting?

12 A. I think Ex. 6 Personal Privacy (PP). I
13 can't remember. But I was talking about
14 the people that was really being affected
15 could speak about how they felt about it.

16 Q. You said they could or could
17 not?

18 A. Could not be heard.

19 Q. Okay. Well, do you recall if
20 there was anybody there from ADEM? And
21 when I say "ADEM" in this deposition, I
22 mean the Alabama Department of
23 Environmental Management.

1 A. I couldn't tell you right at
2 that minute who ADEM was, because I really
3 just now gotten a chance to know who really
4 ADEM is by coming to meetings and my group
5 and people providing transportation for us
6 to come to the meetings.

7 Q. What did you learn from
8 attending the meeting, the first meeting
9 you went to?

10 A. I learned that peoples had no
11 voice in their community.

12 Q. And you learned that right then?

13 A. I learned it because people
14 wasn't listening.

15 Q. And what --

16 A. I was -- our city council don't
17 even listen. Our mayor doesn't listen to
18 the concerns.

19 Q. Yes, ma'am. So nobody listens?

20 A. No. They have an ear when you
21 voting for them. Yes, they listen then
22 when they want you to go around -- because
23 I'm a person that goes around, say, Well,

1 Whatever day we put the complaints in.

2 ADEM should have a record of it.

3 Q. How did you -- how did you
4 learn -- do you -- have you ever made a
5 complaint on ADEM's electronic system?

6 A. I did. I called someone. And
7 then on their record, they wrote the same
8 number that someone else called, the same
9 number.

10 Q. Same complaint number?

11 A. Yes. That's the lack of
12 education. I mean, everybody think the
13 peoples in the community can just get on
14 the phone. Half of the peoples don't have
15 a phone. Half of the peoples don't even
16 know how you use computer. I don't even
17 know how to use a computer. That's the
18 thing that people don't understand. If
19 ADEM come and listen to our concerns, we
20 wouldn't be at this table right now. If
21 you-all go out in the community, landfill
22 people go out in the community, I wouldn't
23 be at this table right now. Why ask

Ex. 6 Personal Privacy (PP)

1 already getting money. Come to us. If
2 you-all just tell us what's wrong with coal
3 ash. Tell us it's not going to hurt us.
4 Tell us what you could do to not have us
5 living in fear every day.

6 Q. Do you have any idea how many
7 times ADEM has been to Uniontown to talk to
8 the community and listen to the community's
9 concerns?

10 A. But they can't talk because
11 Ex. 6 Personal Privacy (PP) up there. Why not go door to
12 door like I do? Those people are not going
13 to hurt you. Black peoples are not going
14 to hurt you. The only thing we want is
15 just to live like other people. The
16 property -- what bothers me -- I take my
17 myself out of my comfort zone and I go to
18 those people. What if this was me? How
19 would I feel if this big coal or coal ash
20 that nobody else want come to this area?
21 The fear of learning -- it makes you sick.
22 You read about it, people testify about it.
23 You see films with people changing. Why

1 not the -- the CEO go to the community,
2 look, you-all, I come in your church. We
3 not going to hurt anybody. Half of the
4 people got their property from their
5 ancestors. They're dead. Half of the
6 people retired. I love Uniontown. I used
7 to come to Uniontown when I used to go --
8 when I move away, I came back because
9 Uniontown was a beautiful place. What do
10 we have? What has changed since coal ash
11 came? Nothing has changed. Where's the
12 money?

13 MR. MARSHALL: Perhaps maybe
14 we could take a minute recess?

15 10:02 a.m.

16 (Short break)

17 10:11 a.m.

18 Q. (Mr. Smith) Ex. 6 Personal Privacy (PP), you
19 mentioned a little bit earlier when you
20 were talking, you mentioned several times
21 that people were afraid. Do you know what
22 has instilled fear in people in the
23 community?

1 A. I remember they saying it, but I
2 can't tell you how many meetings we went to
3 and it was just too much -- a lot of, you
4 know, argument.

5 Q. And do you recall when this most
6 recent modification -- there was a
7 modification in 2012. There was a public
8 hearing in December of 2011. Do you
9 remember going to that public hearing that
10 ADEM conducted?

11 A. I don't know. I've been to so
12 many meetings that ADEM is there.

13 Q. And then for this most recent
14 renewal that we're going be in this hearing
15 about, there was not one, but two, public
16 meetings that ADEM actually conducted an
17 extra meeting at the request of Black Belt
18 Citizens, I believe?

19 A. Notification has to be out there
20 for people to get there. The word has to
21 be out.

22 Q. And people had the opportunity
23 to come to public hearings --

1 A. Yeah.

2 Q. -- on September the 6th of 2016
3 and September the 29th of 2016, did they
4 not?

5 A. You have to be notified to know
6 that there is a meeting.

7 Q. Okay. And there was a letter
8 written to you, was there not, notifying
9 you that they had granted your request for
10 the second meeting, correct?

11 A. I don't know, sir.

12 Q. You don't recall receiving a
13 copy of it?

14 A. I could receive it, but do you
15 understand it? I can receive all the mail
16 you can get in the mail, but do you
17 understand what the meeting mean? What
18 kind of meeting does it mean? That's the
19 communication part of these letters.

20 Q. If a meeting tells you that you
21 got a public hearing on a permit
22 application -- and it's a meeting that you
23 requested?

Exhibit C

Deposition of [Ex. 6 Personal Privacy (PP)]
June 21, 2017

[Ex. 6 Personal Privacy (PP)] *et al. v. Alabama Department of Environmental Management*

1 before.

2 Q. But it wasn't a big hill there
3 before either, was there?

4 A. No, sir, it wasn't.

5 Q. Okay. There wasn't a large
6 grass covered bank before, was there?

7 A. No, sir.

8 Q. And in fact, before, there was
9 nothing but scrub trees and scrub grass
10 overgrowing that property, was there?

11 A. It was just land. Yes. I don't
12 know what's --

13 Q. Have you ever made any
14 complaints to the Alabama Department of
15 Environmental Management about Arrowhead
16 Landfill?

17 A. I think so. Yes, sir.

18 Q. When did you do that?

19 A. It's been -- I don't know. I
20 don't --

21 Q. You don't know?

22 A. Huh-huh.

23 Q. Do you have a judgment?

1 A. No, sir.

2 Q. Has it been within the last
3 year?

4 A. Not that I recall. No, sir.

5 Q. Within the last two years?

6 A. I don't remember. No.

7 Q. Within the last three years?

8 A. I don't know.

9 Q. You just don't know?

10 A. Huh-huh.

11 Q. You think you have, but you
12 don't know when it was?

13 A. No, sir.

14 Q. What were you complaining of?

15 A. The odor.

16 Q. And was this prior to the coal
17 ash arriving, during the coal ash project,
18 or after the coal ash had been disposed of?

19 A. I think it's afterwards.

20 Q. After it had been completed and
21 covered over?

22 A. Uh-huh.

23 Q. Okay. And is the odor today

1 better or worse than it was during the coal
2 ash project?

3 A. It depends on the time of day, I
4 guess. It's -- it's -- you can smell it --
5 it's worse in the mornings and sometimes in
6 the evening and then when it rains.

7 Q. So if the ADEM inspector who
8 does the regular inspections at the
9 landfill generally comes in the morning,
10 she should experience the worst of the
11 smell?

12 A. Sometimes, yes.

13 Q. Okay. And this smell is a smell
14 you described as smelling like rotten eggs?

15 A. Yes, sir.

16 Q. Do you know what hydrogen
17 sulfide gas is?

18 A. Huh-huh. No, sir.

19 Q. All right. Did you complain of
20 anything other than odor to ADEM?

21 A. I can't remember.

22 Q. Did you get any response from
23 ADEM to your complaint?

1 A. Not that I know of.

2 Q. Did you leave your name and
3 contact information when you made the
4 complaint?

5 A. I think I left my name. I don't
6 know about the contact information.

7 Q. Okay. Do you know whether your
8 complaint was investigated?

9 A. I don't know.

10 Q. Do you know whether other people
11 made similar complaints to yours?

12 A. I think so, yes, sir.

13 Q. Do you know if those complaints
14 have been investigated by ADEM?

15 A. I don't know.

16 Q. Do you have any issues with the
17 responsiveness to ADEM to the complaints of
18 yourself and others in the community?

19 A. Huh-huh.

20 Q. I'm sorry?

21 A. Do I what now? Repeat that.

22 Q. Do you have any -- do you have
23 any concerns as it relates to the

1 responsiveness of the Alabama Department of
2 Environmental Management to the complaints
3 you have made?

4 A. Yes. Well, yes, because the
5 odor is still there and the water is still
6 flowing to the property.

7 Q. Okay. Now, the water flowing to
8 the property, I hadn't quite gotten to that
9 one yet. But let's try to finish up with
10 smell first out of the complaints.

11 Did you -- you mentioned the
12 smell is worse in the morning. Is this an
13 odor or smell that occurs every day?

14 A. Mostly, yes, sir.

15 Q. Okay. And it is -- was it
16 occurring every day during the period of
17 time that the coal ash was being delivered
18 to Arrowhead Landfill?

19 A. I guess. I'm not sure. Can't
20 remember that. It's still occurring now.
21 I don't know. But I can remember --

22 Q. I guess what I'm trying to
23 decide is earlier you said it was worse now

17668_53-03_105_12-19-2012_COMP_8E-000XA4K47_CAP_498_LW	12/19/2012	(Phone): Mr. Jerry Holmes is concerned about a possible source of toxicity in a local stream. He observed quite a few dead animals in Tayloe Creek. Specifically, Mr. Holmes mentioned that from the road, he observed 7 dead rabbits in Tayloe Creek; seven on one side of the bridge four or five on the other side/ He also saw one larger animal, believed to be a coyote or a dog. He's not sure how many other dead animals may be present under the bridge out-of-view. All of the animals appear to be in-tact and are floating on the surface. They were observed yesterday at 4:45 pm.	Water: A site inspection was conducted. Land: The complaint was investigated on 12-19-2012. The inspector discovered two rabbits and one coyote, which had been shot, in the creek. A voice mail message was left for one of the complainants and spoke with another complainant, explaining that the animals appeared to have been shot.
17668_53-03_105_12-19-2012_COMP_3X-007RE5Q15_CAP_498_LW	12/19/2012	Numerous dead rabbits and a dead large member of the canidae family (dog, fox, or coyote) were observed by Jerry Holmes on the banks of Tayloe Branch at the Tayloe Road crossing (N 32.44094, W 87.43752) near Uniontown, AL. Tayloe Branch drains stormwater and who knows what else, from the railroad spur that is used by Arrowhead Landfill. Water quality testing and necropsies on the animals are suggested.	Water: The animals were determined to have died of natural causes. Land: The complaint was investigated on 12-19-2012. The inspector discovered two rabbits and one coyote, which had been shot, in the creek. Voice mail left for one of the complainants and spoke with another complainant explaining that the animals appeared to have been shot.

17668_53-03_105_08-17-2013_COMP_4U-000AX2Y76_CAP_498_L	8/17/2013	Landfill is smelling so bad this afternoon it makes you feel sick to your stomach. It got warm this afternoon and it dried up a bit; you can smell the landfill for miles.	The landfill is inspected on a routine basis and was last inspected on June 4, 2013. There was no mention of any odors in the inspection report. Enforcement personnel followed up with the landfill inspector who indicated that no unusual odors were detected at the landfill or along Cahaba Road. Correspondence with the inspector can be located in the Department's eFile system.

17668_53-03_105_08-21-2013_COMP_7I-001GS6T15_CAP_498_L	8/21/2013	There is a real strong odor - stinky odor - nasty smelling odor - coming from the landfill. Its in the road, in my yard; I can't hardly cut my yard. Its just nasty, its aggravating. I am afraid to stay out there too long because its smelling so bad.	The landfill is inspected on a routine basis and was last inspected on June 4, 2013. There was no mention of any odors in the inspection report. Enforcement personnel followed up with the landfill inspector who indicated that no unusual odors were detected at the landfill or along Cahaba Road. Correspondence with the inspector can be located in the Department's eFile system.
17668_53-03_105_08-21-2013_COMP_1N-008NF5U84_CAP_498_L	8/21/2013	Landfill is smelling as bad as it ever smelled; just like it did 3 or 4 years ago. There ain't no end to the smell to this thing because we've had a lot of rain. We're tired of smelling this thing.	The landfill is inspected on a routine basis and was last inspected on June 4, 2013. There was no mention of any odors in the inspection report. Enforcement personnel followed up with the landfill inspector who indicated that no unusual odors were detected at the landfill or along Cahaba Road. Correspondence with the inspector can be located in the Department's eFile system.
17668_53-03_105_08-22-2013_COMP_3L-006UN8K62_CAP_498_L	8/22/2013	Landfill is smelling so bad it makes you sick on the stomach. Its been raining and the landfill is smelling out of sight. ADEM has done nothing about it.	The landfill is inspected on a routine basis and was last inspected on August 26, 2013. The inspector documented no unusual odors or landfill gases were detected outside of the landfill gate or along Cahaba Road.
17668_53-03_105_08-23-2013_COMP_0L-003TH5A08_CAP_498_L	8/23/2013	Landfill has been smelling so poor all this week; its smelling real bad this morning; its smelling for miles and miles. ADEM needs to come out some time and check this landfill and see how bad its smelling.	The landfill is inspected on a routine basis and was last inspected on August 26, 2013. The inspector documented no unusual odors or landfill gases were detected outside of the landfill gate or along Cahaba Road.

17668_ALG160167_105_02-20-2015_COMP_6T-005VS7H84_CAP_1597_W	2/20/2015	Disgrace, corruption and paid off politicians concerning the permitting of tva's coal ash dumping in Perry county. Read the adem mission on home page. God help us. Affected environment is all of those below. Only one can be chosen! JOKE!	Referred to Scott Ramsey of the Industrial Individual Section for review. After reviewing Departmental files, Mr. Ramsey indicated that this complaint was in reference to the Arrowhead Landfill in Perry County that took the Kingston Ash spill a couple of years ago. Scott Ramsey then recommended that it be forwarded to Land Division for potential investigation/inspection/inquiry. Referred to Linda Knickerbocker of the Land Division for possible investigation/inspection/inquiry. On 3/5/15, Ms. Knickerbocker forwarded an e-mail indicating that "this complaint should probably go down "as "not resolvable". Additionally, Brent Watson of the Land Division indicated that this complaint did not appear to be actionable.

List of Complaints Against Two Jefferson County Landfills Compiled From ADEM's eFile System

Complaint Document Name	Date Received	Complaint Text	ADEM's Text Response
1775_37-12_073_12-15-2012_COMP_1E-007RR5C46_CAP_553_L	12/15/2012	uncovered waste just a couple hundred yards from hundreds of homes. I notice this every weekend when at home. its in sight of our homes.; Observed: the past several weeks and currently 12/15/2012.	Landfill inspected. No violations documented
1775_37-12_073_12-16-2012_COMP_0D-008DE1K42_CAP_553_L	12/16/2012	The Landfill bordering Birmingham/Trussville, Alabama has remained uncovered for the past several weeks. It is unsightly, smelly, and the many vultures flying over make the area more noticeable. There are several hundred single family homes adjacent to this landfill. It is suppose to be covered daily is my understanding and this is not being done. In fact it has been WEEKS that a significant portion is uncovered. This is unsightly and unsafe!; Observed: This month of December 2012	Landfill inspected. No violations documented.

1775_37-12_073_12-19-2012_COMP_2G-007FP0N07_CAP_553_L	12/19/2012	<p>Official complaint from the Magnolia Place HOA (I'm the President of the HOA): In violation of ADEM regulation 335-13-4.22, over the last several weekends they have not been covering the garbage with the 6" of dirt as required and leaving it exposed over the weekend. This has affected air quality, number of rats, snakes, and even the number of birds (first time we've seen vultures in the 8 years I've been here). Affected environment: All of them (air, water run off, and land); Observed: Pictures taken 12/17/2012 Eastern Landfill, Birmingham and several weekends before (with the exception of the copperhead which was in my back yard earlier).</p>	Landfill inspected. No violations were documented during the inspection.
